

UN Network webinar series launched with the valuable support of SecureNutrition colleagues at the World Bank

12 July 2017

The UN Network for SUN/REACH Secretariat recently started collaborating with the World Bank on a new UN Network webinar series streamed through the SecureNutrition platform. The webinars are dedicated to profiling UN agency and UN Network (including REACH) tools in support of increased knowledge sharing across global, regional and country levels. The first seminar was held on 21 June 2017, where the REACH Stakeholder and Nutrition Action Mapping process and tool were presented. Two seminars were conducted – the first in English and the second in French – attracting a total of over 100 participants. Preparations for the next UNN webinar are underway, which will highlight WFP's new Fill the Nutrient Gap tool and be broadcast in September.
